Description of the algorithm (in blue will be highlighted changes since you started editing "October 2012")

Points are awarded for new or modified facilities that among tags contain at least one of a group of basic tags. They include:
- Amenity - all values except parking_space and shop
- Shop - value: bicycle, sports, gift, outdoor, convenience
- Leisure - all
- Tourism - all
- Historic - all
- Emergency - value ambulance_station
- Highway - value rest_area
The tag of this group mapowicz receives one point (in the case of a new one) and 0.5 (for modification) when the tag is the primary tag is added to the object. If the object inserted / modified will not contain any of these tags no points for this object will not be charged.
The exception to this is the object that contains the tag of 'access = private'. Then the participant for the POI does not score.

In addition, the person adding POI may receive 0.5 points for each additional tag (beyond basic) excluding the following tags:
- Source - all (including varieties such source: name)
- Note - all (including variations)
- Fixme - all (including variations)
- Addr: - all except addr: housenumber (ie for addr: housenumber can get points)
- Fuel - all with the value of 'no' (eg, fuel: lpg = no)
- Is_in - all (including variations)
- Access - with a value of 'yes'
- Oneway - the value of 'no'
- Amenity - the value of 'parking_space'
- Bicycle - with a value of 'yes'
- Foot - with a value of 'yes'
- Name: en - all
- All the tags - the value of 'unknown' (special cases, please notify the jury)

and in the following cases:
- For an additional tags for 'amenity = bench' (bench), 'amenity = waste_basket " (trash can),' amenity = vending_machine 'Tagged' vending = parking_tickets' (parking meter), 'historic = tomb' (tomb) 'amenity = vending_machine' Tagged 'vending = public_transport_tickets' (biletomat), 'amenity = recycling' with the tag

'recycling_type = container' (container) the participant receives 0.1 points
- A combination of 'heritage = 2', 'heritage: operator = nid' participant receives 0.1 points
- A combination of 'fee = no' for 'amenity = parking' participant does not score
- A combination of 'Supervised = no' for 'amenity = parking' (the default) the participant does not score

These rules also apply tags Scoring added for the modification of objects in OSM.

Checking runs for each object present in the 'create' and 'modify' in the files of changes in the last hour.
The base points mapowicza hit points earned to date plus the points for the analyzed object. This applies to the total score, scores for basic tags or tags added in the modification. Among them are calculated on a website, additional points.
No points are given for improving the value of a given tag.
