

Persistent competition OpenStreetMap

The holidays are a time when we willingly move out of the house in further or closer to the journey. Therefore, OSM Poland is organizing a competition, which aims to promote the project and enrichment OpenStreetMap maps for points of interest (POIs), with special emphasis on those related to tourism.

Competition rules (editing "October 2012")

The competition rules are quite simple. The winner will be the person who during the month will introduce the most OSM POIs related to tourism, monuments, services, etc, etc.

The competition is focused on outdoor activities rather than photographic mapping of sleepers.

Introducing points rely on data collected in the field or from own knowledge of the area. It is forbidden to copy information from other maps or sources of incompatible licenses.

The winner will be chosen on the basis of the result based on the prepared [algorithm](#), after verification of the data by the Competition Commission.

What can you win?

First of all, the reward is the satisfaction and recognition of the community.

The winner will receive a prize of material:

- OpenStreetMap shirt from the store [ftfshop.eu](#)
- Gadgets for about 10 zł from [MIO Poland](#)
- Award a surprise for about 40 zł from [OSM Poland](#)

Duration

Competition in the assumption runs from 1 June 2012 until further notice, except that it is divided into edits lasting one month. For example, edition of "September 2012" will end on September 30, in the chair. 11:59:59 p.m. and within a few days we will choose the winner of this edition, similarly for the next month.
